PROFESSIONAL SUMMARY

- Results-driven DevOps Engineer with 2+ years of experience in CI/CD automation, containerization, and infrastructure management within Linux environments.
 - Skilled in Jenkins, Docker, Ansible, Bash/Groovy scripting, Kubernetes (basic), Terraform (Infrastructure as Code), and JFrog Artifactory.
 - Experienced in building scalable microservices architectures, implementing Liquibase for database versioning, and designing monitoring solutions using Grafana and ELK Stack.
-

EDUCATION

Mangalam College of Engineering, Ettumanoor Bachelor of Technology in Computer Science and Engineering	2016-2020
Govt. Tribal Higher Secondary School, Murikkattukudy Higher Secondary Education	2014-2016

PROFESSIONAL EXPERIENCE

DevOps Engineer – Muziris Softech (P) Ltd	Jan 2025 – Present
--	--------------------

- Designed and maintained CI/CD pipelines using Jenkins, reducing deployment time by 40%.
- Containerized applications using Docker for consistent multi-environment deployments.
- Automated deployments using Ansible, reducing manual configuration errors by 60%.
- Managed artifacts and build versions using JFrog Artifactory.
- Developed Bash and Groovy scripts for automation and monitoring tasks.
- Implemented Liquibase for automated database schema migration and version control.
- Built monitoring dashboards using Grafana and centralized logging using ELK Stack.
- Worked with Kubernetes (basic) for container orchestration and deployment management.
- Practicing infrastructure provisioning using Terraform for AWS environments.

Software Version Controller – Muziris Softech (P) Ltd	May 2022 – Dec 2024
--	---------------------

- Managed Git repositories, branching strategies, and release workflows.
 - Optimized Linux production environments for performance and scalability.
 - Collaborated with development teams to improve deployment reliability.
 - Promoted DevOps culture and CI/CD best practices across teams.
-

TECHNICAL SKILLS

- **CI/CD:** Jenkins, Git
- **Containerization & Orchestration:** Docker, Kubernetes (Basic)
- **Infrastructure as Code:** Terraform (Learning & Practice)
- **Configuration Management:** Ansible

- **Scripting:** Bash, Groovy
- **Artifact Repository:** JFrog Artifactory
- **Monitoring & Logging:** Grafana, ELK Stack
- **Database Versioning:** Liquibase
- **Data Pipelines:** Apache NiFi
- **Operating Systems:** Linux (Ubuntu, CentOS)
- **Cloud:** AWS (EC2, S3)
- **Architecture:** Microservices
